

DIGITAL FORENSICS INVESTIGATION REPORT

Evidence Examiner Desk - Official Case Report

Case ID	CASE-1
Device ID	DEV001
UFDR file	sample_ufdr/report.xml
File size	1.0 MB
Investigation date	8/25/2026
Report generated	8/25/2026, 8:45:50 AM
Analyst	Tharunvta
Analysis status	Complete

This document contains recovered device evidence together with clearly labelled analysis-derived and AI-generated content. AI-generated text and derived findings are not confirmed facts and must be verified against the source evidence.

1. CASE OVERVIEW

Case ID	CASE-1
Device ID	DEV001
Evidence records	9
Analysis completion	Completed 8/25/2026

2. EXECUTIVE / AI SUMMARY

AI-GENERATED SUMMARY - AI-GENERATED ANALYSIS. VERIFY AGAINST SOURCE EVIDENCE.

Digital Forensics Report for Sample UFDR Case (Case #1). System processed 1 device(s), 1 contact(s), 2 message(s), 1 call(s), 6 media item(s), 3 OCR result(s), 1 transcript(s), 2 image analysis record(s), and 16 object tag(s).

3. EVIDENCE STATISTICS

2 MESSAGES	1 CALLS	1 AUDIO	5 IMAGES
3 OCR RESULTS	16 DETECTED OBJECTS	1 ENTITIES	4 FLAGS

4. ENTITIES

Rahul Sharma - Contact Record

Known contact: +919876543210

Related records: CT001

5. FLAGS / ANALYSIS FINDINGS

ANALYSIS / DERIVED FINDING - NOT A CONFIRMED FACT

OCR Text Extracted (3 items)

Source: Tesseract OCR Engine

Records: MED-4, MED-5, MED-6

ANALYSIS / DERIVED FINDING - NOT A CONFIRMED FACT

Audio Transcripts Extracted (1 file)

Source: Whisper Audio Transcriber

Records: MED-2

ANALYSIS / DERIVED FINDING - NOT A CONFIRMED FACT

AI Image Scene Classification (2 images)

Source: OpenCV / CLIP Scene Detector

Records: MED-1, MED-3

ANALYSIS / DERIVED FINDING - NOT A CONFIRMED FACT

Object Detections Tagged (16 detections)

Source: YOLO Object Classifier

Records: MED-1, MED-1, MED-1, MED-1, MED-1, MED-1, MED-1, MED-1, MED-3, MED-3, MED-3, MED-3, MED-3, MED-3, MED-3, MED-3

6. EVIDENCE TIMELINE

[M001] MESSAGE - Mar 01, 2025, 08:14 PM

+911234567890 -> +919876543210

Call me tonight, don't message here again

[M002] MESSAGE - Mar 01, 2025, 08:16 PM

+919876543210 -> +911234567890

Ok. Sending the photo now

[MED001] IMAGE - Mar 01, 2025, 08:20 PM

OCR text: Why Digital Forensics Matters Today

Every phone we carry quietly records where we go, who we talk
to, and what we search for. When a crime is committed, this
trail of data often becomes the strongest evidence available.

Investigators extract this data using specialized tools that
pull messages, call logs, photos, and app data off a seized
device without altering the original evidence.

The real challenge is not collecting the data but making sense

of it quickly. A single extraction can contain thousands of
messages and files, far more than any human can review by hand
in time.
